

Pitch requiring some skills in protecting, particularly on the upper section the bolts are quite sparse and the protection possibilities scarce. Mandatory for having decent pro are a BD C3 red and a BD C4 0.3. Without these the route becomes Expo!

Other than the above this pitch is spectacular for the grade and on very good rock

Klettersteig

Deviating from the Elfer Via Ferrata approach following faint traces up a rock fall exposed area (Helmet!, and pass fast). 30 min from Elferhaus.
